

Drug Testing Lab Control Solution

Keyed Authority Water Isolation

Water isolation in a modern, reliable & easy to operate keyed controller

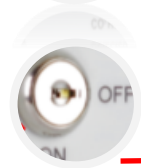

Easy To Use

Clear status indication for each Utility

Quick Operation

Keyed or rocker switch ON/OFF
Alarm re-set

Multiple Mounting Options

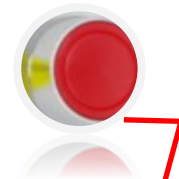

Available for wall, fire wall and flush mount applications

Modern Design

Slim compact enclosure

Emergency Shutdown

Recessed panic button for automatic water isolation

Ease Of Access

Power indication and QR code for easy access to manuals

PARTCODE:
MERLIN500S

Incredibly Easy to Use & Install

- ✓ Keyed or rocker switch authority over a restroom water supply
- ✓ Water status display on front fascia of controller
- ✓ Connections can be made to control drain supplies if required

TAKE CONTROL AND PREVENT MISUSE

WATER & DRAIN SOLENOID VALVES

The Merlin 500S isolation panel prevents water flowing to the restrooms where drug samples are being taken.

The 500S panel is designed to provide the user with an effective means of isolating the water supply via a key or rocker switch. Connections can be made to additional solenoid valves to control the drain supply if required.

The CGS solutions are already protecting many drug testing properties across the globe.

Intuitive and accessible design makes the CGS range easy to specify, easy to install and very user friendly.

Modern components compliment years of industry experience to provide a tidy solution to drug testing water isolation.
